Istria, Poreč, surroundings

Modern terraced villa in a beautiful location with a view.

Near the town of Poreč, in a well-known hilltop village overlooking the sea and surrounded by greenery, a top-designed villa with an emphasis on comfort and spaciousness of all units is being built.

The house has a surface area of 117.2 m2 and spans two floors. On the ground floor, there is an entrance hall, a spacious living room with a dining area and kitchen, a storage room, and a toilet. An elegant staircase leads from the living room to the upper floor, where there are two large bedrooms, each with its own bathroom. The upper floor offers a beautiful view of the sea and the surrounding landscape. The living room opens onto a landscaped garden of 218 m2, providing enough space to arrange outdoor amenities according to the ideas of future owners.

The house's intelligent design and above-average ceiling height offer great possibilities for interior design. The interior images in the advertisement represent visual solutions and ideas. It is sold on a turnkey basis, unfurnished.

All necessary amenities for living are located in the village itself, while Poreč and the first beaches are a 10-minute drive away.

This property is intended for owners who want to enjoy the summer months or as an ideal investment for rental.
