The land is located in a beautiful location. Distance from the center 500m from the center and 900m from the sea. All infrastructure near the land.

An application for a building permit for the construction of a two-story house has been submitted for the above land. According to the project, it is possible to build 247m2 of net living space.

An interesting property to buy for the construction of a house for everyday life, where all amenities are nearby. Also interesting for the construction of a building with 3 apartments.
