#### BUILDING LAND FOR SALE - POREČ SURROUNDINGS

A building land of regular shape is for sale, located in the center of the village, in an extremely attractive and quiet location just two kilometers from the sea.

The plot has secured access to infrastructure - electricity, water and sewage are located right next to the land.

According to the spatial plan, it is possible to build 4 residential units or houses in a row, which makes this property an ideal opportunity for investors, but also for private construction.

The first floor of the future building offers a beautiful view of the sea.

There is a possibility of exchanging it for a property in Zagreb.
