Air conditioning heating :	Yes
Year of construction :	2027
Energy efficiency :	Not specified

Price : 216.728 €

In a quieter part of the Poreč area, just a few minutes from the sea and the city, a modern concept residential building with a total of ten apartments is under construction.

The apartment on the first floor with a net area of

55.93 m2 consists of a living room with a kitchen and dining room, two bedrooms, a bathroom, a guest toilet and a covered terrace.

The project is focused on quality and functional housing, which is why underfloor heating, an air conditioning system, PVC joinery with large openings, security doors and a combination of ceramics and parquet are already planned during the construction phase.

Buyers will have access to an elevator, storage room, garage parking space and an additional outdoor parking space.

The location provides easy access to Poreč and the beaches, while the building itself offers more privacy and a smaller number of apartments compared to larger residential projects.

For all information about the project and how to purchase, please feel free to contact us.
